Constantine, June 29, 1836.

Constantine, June 29, 1836.

Buffalo, June 20, 1836.

My father, when our fortune smiled, With jawels decked his sightless child, Their glattering worth the world might see, But ah! they shed no sweets for me! Still as the present failed to cherm, The trickling drops bedewed my arm; And sure the gem to me most dear, Was a kind f.ther's pitying tear.

[From the Bernard Barton.]

NOW, IN THY YOUTH. Dost thou not love when leaves are greenest,
And summer has just begun,
When, in the stillness of moonlight, thou learnest
Where glittering waters run?
To see, by that pure and peaceful beam,
The willow bent low to the sparkling stream?

And then, in a lovely autumnal day,

When leaves are changing before thee,
Do not Nature's charms, as they slowly decay,
Shed their own mild influence o'er thee?
And have you not felt as you stood to gaze,
The touching lesson the scene displays?

It should be thus, at an age like thine, And it has been with me, When the freshness of feeling and thought wer

mine,
As they never can be!
Yet think not I ask thee to pity my lot,
For I may see beauty, where you see it not. TEW BOOKS BY CANAL, at STEELE'S

Hast thou seen, in winter's stormiest day,
The trunk of a blighted oak,
Not dead, but sinking in slow decay,
Beneath time's restless stroke,
Round which a luxuriant ivy had grown,
And wreathed it with verdure no longer its own Oh smile not-and think it a worthless thing.

If it be with instruction fraught; That which will closest and longest cling, Is alone worth a serious thougat. Can aught be unlovely, which thus can shed Grace o'er the dying, and leave not the dead? Now, in thy Youth, beneech of Him

Who giveth, upbraiding not,
That his light in thy heart become not dim,
That his love be unforgot;
And thy God, in the dark st days, shall be ss, and beauty, and strength to thee

Flagellation, a cure for poisoning, by Opium.—The following article is from the Medical Journal of Wednesday. As the remedy it discloses for poisoning by Opium seems to be efficacious, it is not impossible that poisoning by alcohol might be cured

PLOUGH FACTORY.—REID, TERSDAL & Co. wo.ll stats, for the information of the public, that they have entered into a co-pirten raship, in the PLOUGH business, and op and a shop in Mechanics' Row, Constitution, for the purpose of Manufacturing and Repairing Ploughs, where they will be gld dtore in voorders for work, in their business.—The public are insured that they will give strict attention to their business.—Plughs WOODED in the most approved style. Handles, Beams, die., kept constantly on hand, so that Old Ploughs can be repaired on short notice; also, repairing of all kinds, done on the most reason ble terms, for Cash.

Firmers are invited to cell and examine their Ploughs, and judge for themselves. by similar means. The account is from Dr. Joseph Barreft, of Middletown, Conn. Tincture of Opium is not unfrequently resorted to for the destruction of life. It is also unfortunately, and too frequently, taken by mistake, and proves fatal before efficient means can be taken to counteract its deleterious effects on the system. I am induced therefore, to offer a short statement of a case of poisoning with laudanum, that SAMUEL TEESDAL, WILLIAM REID. fell under my care, several years since, for ltf the following reasons: First, the success that attended the mode of practice pursued; WWARDWARE AND CUTLERY. and, second, from not having met with any such means recorded, to my knowledge, either in works on medicine or treatises on

PATENT FANNING MILLS.

P. E. GROVER would inform the citizens of St Joseph and adjoining counties, that he is now making this abop, in Constantine, the best article of FANNING MILLS ever off red for sile in the Western country, of an improved patent, and wave recountry, of an improved patent, and wave recountry. home, under circumstances which it is not important here to relate. Much time, about three hours was therefore lost, before any effectual measure could be adopted for his relief. His case, as I found him, appeared altogether hopeless. Before my arrival, emetics and various drinks had been tried, besides frictions, and constant, though ineffectual attempts had been made to irritate the œsophagus, by feathers.— All these means had failed, and the patient was in such a profound stupor that apparently nothing but warmth remained to indicate that life had not already become extinct. The quantity of laudanum taken, The Subscribars have on hand an extensive supply of Boots and Sho s. was ascertained to be one ounce and a half. This dose has proved fatal, as appears by reference to M. Baruel's case, Parisgra Boots and Shoes, Ludies Kid, Seal, C. If, Morocco and Pranelli Boots, Shoes and Slips; also, Children's Morocco and C. Ifskin Shoes.

As their assortment of Brogens were made to order, and of the best material, they followed the confident in saving that Shoes of a lattice of the confident of the poison into the circulating operation of the poison into the circulating order, and of the bost instruit, they followindent in saying that Shoes of a bott r quality were never before offered in this merket.

Constanting, Juny 29, 1836. system. The case, appearing so desperate, justified me in the course of treatmen which I was, under existing circumstances

then obliged to adopt.

Internal remedies having entirely failed there was no chance left but for high ex ternal excitements. I therefore determin ed to use vigorous measures. I com-menced with flageilations, using long, pliant fresh twigs to the palms of the hands and soles of the feet. These were briskly ap-plied, and in a short time he gave indica-TO FARMERS.—WHEAT. Constantine, June 29, 1835. tions of uneasiness and pain. This treatment was unremittingly pursued till the man spoke, and complained of being pained by the whipping when this severe appli-ance was relaxed; but on so doing, he instantly sunk into a profound stupor, from which he was again only roused by the

severity of whipping.

It required the aid from a number of men to take turns in the flagellation, as well as to support and walk him about; for a cessation.

was in about twelve hours after commencing with the flagellation. The following day he was sleepy, and complained somewhat of a sense of smarting in his hands and feet (though they were not blistered.) In permitting him to rest, care was taken to wake him at intervals, till such time as was congitive deferment.

esting information respecting the mode of obtaining the sacharine matter, and converting it into sugar, &c. According to his account, 100 lbs. of beet yield 85 lbs. of juice, (is not this a mistake?) It appears that after the juice is expressed, the pressed cake is used to fatten cattle, sheep, &c. which thrive on it remarkably well .-As the article of sugar is now excessively high, it is very desirable to have it obtained from other than foreign sources. This beet can be cultivated in our Northern and Middle States with the utmost success—so says Mr. P. We give the following extract form one of his communications.

Was no pity.

By speaking kindly to him, I in a short time obtained his confidence, when he stood still and allowed me to stand close beside tract from one of his communications:

At a manufactory in Valencennes, con-ducted by a farmer, &c. I saw some very good machinery, which crushes 50,000 lbs. of beet; another 75,000; evaporating all the juice and crystalizing all the sugar therefrom in 16 hours only. 100 lbs. of beet yields 85 lbs. of juice. The beet cost 1 franc, (18 3-4 cts.) per 100 lbs. and is sold for 5 cts. per basket, (1-2 a bushel.) to feed oxen and sheep. I saw in one stable 50 large ploughing horses, 7 saddle horses in another stable, 30 fat oxen, which have nothing but the cake and straw to feed on, and two of the largest oxen I have seen for many years, finishing off with cake mixed with oil cake, a most capital food; his sheep were feeding on the cake, but sley a beeding flock; his beet roots were very fine; he calculates that, in a good season, the beets yield 10 per cent. of saccharine, and six of crystalized sugar. 3 of molasses, and 1 of molasses contained

village commenced yesterday at 12 o'clock.

A number of lots in the outskirts of the village, to the amount of about \$35,000, were disposed of at different intervals in the afternoon. The sale is well attended by cap- human habitation, in violation of every law italists from distant parts of the country. both human and divine, the members of his heavy purchases, and improve the unrival-led facilities here presented for building up a manufacturing city: and the indications consider the greatest boon of Heaven, that of the first day are highly favorable to a rapid and ready sale of all the land that death, except when the fanaticism, which a manufacturing city: and the indications may be thrown into market. Several of the purchases yesterday were resold before leaving the ground at a handsome advance-leaving the ground at a handsome advance. We may instance one that came immediate possession of an immorality of bliss—But although these acts of frantic ately under our notice. One of the first lots put up was knocked off to Samuel Johnson Esq., of Buffalo, who sold it withof the more valuable lots, including a part of the water power we learn, will be offered to day. Some estimate may be formed of the value of the water power that may here be commanded, from the fact, that an amount sufficient to recent 6.000 spirally of the value of the value of the water power that may here be commanded, from the fact, that an amount sufficient to recent 6.000 spirally of the value of the value of the value of the water power that may here be commanded, from the fact, that an amount sufficient to recent 6.000 spirally of the value of the burden of a sorrowful existence, is comparatively rare. The leper will hear about him the curse of the leprosy, with all its attendant miseries, and put forth his complaint to the unconscious winds; yet, even in the midst of privations and bodily sufferings which it is appalling and the comparatively rare. amount sufficient to move 6,000 spindles of an ordinary factory, is valued, at Lowell, Mass., at \$36,000.—Niagara Falls Jourselved, to be conceived.—Oriental Answers, and contemplate to be conceived.—Oriental Answers, and contemplate to be conceived.—Oriental Answers. nal, Aug. 3.

We suppose, in charity, that those whig editors who falsely represent that Mr. Van Buren favors the Roman Catholic religion, are not aware that their candidate, Gen. Harrison, once gave \$300 towards erecting a Roman Catholic chapel and supporting a priest; -or they would certainly mention it. -Wayne Sentinel.

of expensive experiments, has been fully successful in discovering the art of drying and manufacturing the leaves into a tea of a quality quite equal to imported Young Hyson. He offers gratuitously to furnish seed of the last year's growth to any gentleman desirous of pursuing the cuitivation.

In this death, which arose from apoplexy at the age of 45, from want of exercise, owing to a pistol shot in the knee received at the battle of Waterloo. At the battle the following is related of him.

On one occasion, when a part of the British army was ordered to advance against a southern planter were journeying together or by stage, when the conversation turned

of the use of the rods was followed by instantaneous stupor. After six or five hours under this course, the stupor was lessened, and the severity of the flaggellation was sainingsted; but as the case required constant

supplication was piteously imploring. He bid me not come near h m, as he was a polluted creature, against whom the hand of every one was raised, and for whom there

him. I asked him the reason of his extraor-dinary appearance. He told me that he had been for years a martyr to the leprosy, which, though at length cured, had left upon him the brand of irremediable pollution. The very bue of his skin had changed from a deep brown to a cadaverous and sickly white, and no one mistake that he had been a leper. In India, lepers are held to be accursed of the Deity; they are, in consequence, universally shunned, and many yearly die in an abject of destitution truly deplorable, from the universal abandonment to which their dreadful visitation exposes them. Though this poor man was of the lowest caste, none of the members of his tribe would hold intercourse with him, and

he was cast forth a wanderer, where he could find none but such as were laboring under a similar infliction, who felt any sympathy in his wretchedness. Nothing can be more melancholy than

the thought of a human creature so situated. The Land sale at Niagara Falls.—The

Not only an outcast from general society, but shunned even by the most degraded of his tribe, he has no home but such as he great sale by auction, of real estate in this makes for himself, apart from the haunts of who have come with the design of making own family will frequently put the wretched-

> Ohio and Tennessee Bills .- The Bro kers, we understand charge 10 per cent. to change all Ohio and Tennessee Bank Bills. The pretence is that the failure of Rathbun may affect the Banks to which they belong. Several persons, we understand, have been foolish enough to yield to the price. 'Credit is better than money."-N. Y. Times.

Young Hyson in Ohio.—Mr. John Platt, died in England, was one of the most disof Marietta, Ohio, advertises in a paper of tinguished officers in the British army, and that place, that he has succeeded in cultivating the genuine Tea Plant of China.—
He has, he says, raised the plant for ten years past at Marietta; and after a series Guards, and continued in the regiment till Guards, and continued in the regiment till of expensive experiments, has been fully his death, which arose from apoplexy at the successful in discovering the art of drying age of 45, from want of exercise, owing to a pistol shot in the knee received at the bat-

British army was ordered to advance against the enemy, and on turning a ravine, became exposed to a heavy and destructive fire, the column began to slacken, when t.ey saw Col. (then Captain) M. coolly shaving himself with a glass before him, in the middle of the fire; the men delighted and encountries are the second to a heavy and destructive fire, the column began to slacken, when the conversation turned upon the profits and lesses of each in their business. The southerner having given in his inventory the merchant replied, "Well, sir, you must be as rich as Crossus." "Why not so rich neither," rejoined the planter. "true I raise a great deal of corn, but I have a great many negroes and hogs; and subscriptions thus far for this road at the several places where the books were opened, were as follows:—Rochester \$85,700, Canandaigua \$141,700, Victor \$11,000, Manchester \$12,000, Vienna \$50,000, Geneva \$108,000, Seneca Falls \$122,000, Canandaigua \$10,000, Canan

him at intervals, till such time as was considered safe to allow him more repose; some light refreshment was eaten, and castor oil administered. He afterwards experienced but little inconvenience from his hands and but little inconvenience from his hands and his mind poor. I have often, with administered. He afterwards experienced but little inconvenience from his hands and feet, and was perfectly restored, in a few days to his usual health.

> Advice to Apprentices .- 1. Having selected your profession, resolve not to aban-don it; but by a life of industry and enterprise seek to adorn it. You will be much more likely to succeed in business you have long studied, than in that of which you know but little.

> 2. Select the best company in your power to obtain; and let your conversation be on those things you wish to learn. Frequent conversation will elicit much in-

3. Obtain a friend to select for you the best books on morality, religion, and the li-beral arts, and particularly those which treat

on your profession.

It is not the reading of many books that makes a man wise, but the reading of only those which can impart wisdom. Thoroughy understand what you read; take notes of all that is worth remembering, and frequently review what you have written.

4. Select for your model the purest and

greatest characters; and always endeavor to imitate their virtues, and to emulate their

5. Serve God-attend his worship-and endeavor to set an example of piety, charity, and sobriety, to all around you.

6. Love your country; respect your rulers; treat with kindness your fellow apprentice; let your great aim be usefulness to mankind.

7. Get all you can by honest industry; spend nothing extravagantly, and provide largely for old age.

8. In a word, think much, act circum-

spectly, and live usefully.

The Dismembered Republic of Columbia.

This Republic, now divided into three, viz; Venezuela. New Grenada and Equador, has been, i. e. its several parts have been, endeavoring for some years past, to arrange the matter of the old national debt, most of which is due to Great Britain and the United States. The efforts at an adjustment have however failed, thus far, and a correspondent of the Washington Globe who writes from Bogota, expresses his opinion that the matter will not soon be arranged (and of course all unsettled claims will remain in statu quo.) uuless some friendly nation interferes as meditator between the parties .--He adds,-'I do not know any government that would be more likely to succeed a more acceptable than that, of the Unit States; and I hope that its mediation m be tendered.'-Jour of Com.

\$100,000 round.—It will be remembered that a package of the United States Benk Notes, amounting to one hundred thousand dollars, transmitted by the Commercial Bank of Cincinnati, to its Agent in Philadelphia, some months ago, was lost, and had been advertised in the Journal of Commerce and several other papers. The package has been found in the same place where the man found his spectacles. It was received from the messenger by the Agent in Philadelphia, tog ther with several other packages, and thowa hastily into his iron chest, when it happened to get under some loose papers, so that when the other packages were taken out, that was not seen. It, however, lay quietly in the same place until Saturday last, when it was uncovered, to the great joy of all concerned.—Jour. of Com.

have a great many negroes and hoge; and I'll tell you how I come out at the end of the year; my hogs eat all my corn; my nig-
